# Environmental & Sustainability Policy

## Our Approach

Brook Green Supply is an office-based business, committed to minimising our environmental impact wherever possible. We work to ensure that we are constantly improving our sustainability and factor environmental considerations into all our decision-making.

## Key Objectives

- a) Monitor and review our environmental performance and set targets to maintain progress.
- b) Reduce our energy consumption and emission of greenhouse gases.
- c) Reduce waste produced in our office and increase recycling facilities.
- d) Comply with all relevant environmental legislation.

## What We Are Doing

- a) Procure 100% REGO-backed electricity and carbon-neutral gas contracts for our premises.
- b) Minimise waste by ensuring all operations are as efficient as possible.
- c) Actively promote recycling and ensure all waste from our premises is disposed of in an environmentally safe manner including WEEE (Waste Electrical and Electronic Equipment.)
- d) Use recycled products wherever possible.
- e) Actively promote efficient use of water, energy, material goods on our premises
- f) Ensure that all employees have the correct training to undertake their activities and ensure they understand the impact their behaviours have on the environment and encourage staff to minimise their environmental impact.
- g) Ensure all suppliers meet the environmental obligations laid out in our purchasing policy.

## Working with Customers

- a) We recognise the need for a strong set of environmental values and principles. This is most clearly manifested in how we work with our customers to bring them closer to an energy system driven by renewables and flexibility.
- b) Provide and promote a product range that supports customers in minimising their environmental impact, by supplying 100% REGO-backed electricity and carbon-neutral gas to all customers as standard and offering an additional green gas option.
- c) Provide optimisation, flexibility and energy efficiency solutions to our customers. The environmental impact of any solutions or propositions is clearly communicated and costed to all customers.

# Environmental & Sustainability Policy

## **Environmental Policy implementation and Review**

- a) Senior Management has overall responsibility for implementation and review of our commitments.
- b) This policy will be reviewed and updated periodically to ensure it remains in line with our business objectives and that we are continually progressing.
- c) All staff are expected to review this policy regularly and comply with the guidelines set out above.
